**ILD ANNOUNCES COMPLETION OF ACQUISITION AND INTEGRATION
OF JOIN THE CALL CONFERRING**

Ponte Vedra Beach, FL – ILD Telecommunications, Inc., an industry leader in payment processing, business process outsourcing and conferencing solutions, today announced it has completed the integration of its July 2006 acquisition of Join The Call, LLC, a switchless provider of multimedia conferencing services and support. Join The Call's customer base has become part of the ROLLCALL Conferencing division of ILD.

"We are pleased to welcome Join The Call clients to ILD," said Fred Lloyd, Senior Vice President of Strategic Planning of ILD and head of the ROLLCALL Conferencing division. "The acquisition of Join The Call was a logical expansion for us given how well ROLLCALL and Join The Call meshed across customer segments, platforms, and technologies. The acquisition is an important addition to our ROLLCALL division, immediately increasing the size of our conferencing division. Join The Call clients will benefit from the suite of additional conferencing features available through ROLLCALL." said Lloyd.

Join The Call, founded in 2001, is expected to immediately contribute approximately a 15% growth in revenue to the ROLLCALL Conferencing division. This acquisition comes on top of internally generated growth in usage of over 30% during the course of the last year. The combination of Join The Call's customer base with ROLLCALL's facilities-based conferencing operations, has established ROLLCALL as **one of the industry's fastest growing conferencing providers**, capable of producing superior value for its wholesale and enterprise partners. The ROLLCALL Conferencing division of ILD currently manages approximately 2,500 corporate accounts and demonstrated approximately 20% growth in revenue in the last year.

About ILD Telecommunications, Inc.

ILD Telecommunications, Inc., a privately held company, provides payment processing, business process outsourcing and conferencing solutions to communication providers, digital merchants, internet service providers, information and entertainment providers and other enterprises.
